

FINEEC

AUDIT CERTIFICATE

The Finnish Education Evaluation Centre has awarded the
Kajaani University of Applied Sciences
a quality label, which is valid for six years
until 20 March 2021.

The audit was conducted by FINEEC audit team. The main strengths of the quality system of the Kajaani University of Applied Sciences are:

The management and quality system form a systematic whole with the help of which strategic goals are transformed into parts of individual-level operations.

At the level of the UAS, operations have been organised by development target and the staff of the UAS are comprehensively included and participate in the development activities.

The Kajaani University of Applied Sciences has a systematic and documented project preparation and management process that supports the implementation of the strategy of the UAS and the strategies of the region.

The quality management of the development target "Students in development activities" was chosen by the Kajaani University of Applied Sciences as the optional audit target.
