

# *Come and complete* **SUMMER SCHOOL STUDIES TO MAKE A GAME APP**

KAJAANIN  
AMMATTIKORKEAKOULU  
UNIVERSITY OF APPLIED SCIENCES

## Developing a Commercial Game Application 1 (10 credits)

Snap up this opportunity! Come and complete international summer school studies in game development offered at Kajaani University of Applied Sciences and experience the pure nature of Kainuu and the midnight sun! During the course you will work in game development teams for two months while simultaneously learning the objectives and methods of developing a commercial game. You may even have the opportunity to publish your own game!

The course is offered in the open university of applied sciences and you can have it accredited as a part of your studies at your own university. Negotiate any possible studies to be accredited and the summer student grant with your own university in advance.

**Please note that if you wish to develop your skills in using either Unity 3D or Unreal Engine 4, a week-long intensive course for this purpose is available 1. – 5.6.2015.**

**Date of the studies:** 8.6. – 31.7.2015

**Requirements:** Previous knowledge of basic programming or graphics

**Price:** The price of the studies is EUR 150 and the price of accommodation e.g. EUR 200/double room or EUR 340/single room

**KAJAK**
