CEMIS in a nutshell

CEMIS is a contract based joint centre of University of Oulu, University of Jyväskylä, Technical Research Centre of Finland VTT, CSC-IT Centre of Science and Kajaani University of Applied Sciences.

CEMIS was founded in Kajaani in 2010 and employs around 110 professionals.

CEMIS specialises in research and higher education in the field of measurement and information systems.

CEMIS's mission is to provide r&d –services, training and education, new technology and innovations for companies and research organizations developing and applying measurement and information systems.
